

# About the Artist

I have been shooting photographs for over 25 years. At the age of 23, I sold my first image, but did not consider photography a career choice until a trip to Spain many years later. In Barcelona I couldn't put the camera down, so on the flight home I decided to start showing my work. Now, I am actively showing art in Atlanta as a member of two photographic societies. Most recently, I joined the Magnolia Society International and look forward to their meeting in May.

## My recent works are blooming!

Flowers are one of my favorite subjects. Seriously, in August I am looking forward to March's Magnolia blossoms. My on-line Etsy shop is named MagMoment after the magnolia flower and the word magnificent. To the right is "Waltzing," honorable mention in the SE Flower Show.

Each year our family takes a **road trip**.

This country provides the art for my canvas and puts me in the mood for art festivals. Our visits have taken us to the Outer Banks of the Carolinas, across Pennsylvania, into DC, up to Toronto, Montreal and Niagara Falls. This past summer we drove through Florida stopping in Miami, Clearwater, Naples and Key Largo.

My current project is traveling to all of the **Georgia State Parks**.

I am photographing and writing about the parks on my blog. This image below is titled "Camellia Peace" taken in Indian Springs State Park.
